

Financial Intelligence

Is money more intelligent than you??????????

- Money works perfectly, the question is do you work perfectly with money?

Most people would love to be financially free, but do not even know what freedom is, they pick a number out of the air, and say 'when I have that much in my bank account, I will be financially free'. The more intelligent will have given some thought to the lifestyle they want, and worked out what income they need to pay for it. The big problem with financial planning is that you do not truly know what you will want in the future, after all, we live in a world that is changing faster than ever before. It constantly opens up more choices than we imagined, and more unforeseen challenges that may eliminate our careful financial plans.

The real definition to Financial Freedom is to be able to spend more than you have, and still have more to spend!!!!

But how?

By expanding your mind to the true nature of money, understanding how the financial system works.

- Do you know what money really is, it's history and control?
- Do you know how banks work, what their business model is?
- Do you understand balance sheets, assets and liabilities, profit and loss?
- Do you understand how a debt can be an asset, and a profit can be a liability?
- Do you understand both inflation and deflation, and how to profit from both?
- Do you understand interest, and how to get it working for you, even if you are in debt?
- Do you know how savings and investments work, and why it can be better to be a borrower than a saver?
- Do you know how you can be financially free IMMEDIATELY? Without any savings?
- Do you know how to value investments for maximum returns and minimum risk?
- Do you know how the word financial markets work, and how to make them work for you?
- Do you know how to start a business, advertise, and market your products and services?
- Do you know how to invest without risking your own money?
- Do you know how to repair your credit history?

What is the value of this kind of information, and how can it change your life?

My name is Babu Shah, founder of a successful international company that has taught thousands of people about money and investing. Having spent 7 years working and meeting accomplished experts in various financial areas, I am now able to live exactly as I please enjoying freedom by tapping into the inborn intelligence that we all have. My circle of friends and family enjoy a lifestyle that has been undreamt of. The key to it all is the power of your own mind!!

The wonderful thing about this powerful awareness I want to share with you is based on 11 years University research that shows that average income levels increase by 88%, goal achievement by 67%, and life satisfaction shoots off the charts!!

Whilst you may already be convinced about the value of our one day seminar, and are ready to call NOW to secure your place (we are only accepting 20 people for the first seminar/workshop of its kind), there is more.

As well as this valuable information, that if used, can increase your net worth by 100% in a year, we are offering regular coaching sessions with our team of experts for 6 months!!!

These experts all have a proven track record in investments, finances, business and property. You can use them to discuss potential opportunities that you will know how to find as a result of this day.

If you are now ready to change your life, then pick up the phone and call to book one of the 20 limited places that can help you achieve the life of your dreams.

Call 07734560790 and make the most financially intelligent decision of your LIFE!!!

Thank you for your time

Babu Shah
